

ABB Engineering Technologies Company (KSCC)

Established in 1980

Address :

Al-Qibla Area, Abu Baker Al Sadique Street,
Al-Ghunaim Commercial Tower, 5th Floor,
Kuwait City
P. O. Box : 4275 Safat 13043 Kuwait
Tel. : 2227 7888 / 999
Fax : 2227 7800 / 900
Email : info@kw.abb.com

Working Hours :

8:00am - 6:00pm (Sunday - Thursday)

Management :

Abdul Ghani Khalid Al Ghunaim (Chairman)
Fahad Khalid Al Ghunaim (Vice Chairman)
Paul Dennis (Managing Director)

Employees : 250

Activities :

ABB is a pioneering technology leader that works closely with utility, industry, transport and infrastructure customers in roughly 100 countries. With more than four decades at the forefront of digital technologies, we are a leader in digitally connected and enabled industrial equipment and systems with an installed base of more than 70,000 control systems connecting 70 million devices. ABB is organized into four divisions according to the customers and industries we serve.

Electrification Products division

ABB offers a full range of technologies across the electrical value chain from substation to the point of consumption, enabling safer more reliable power flow.

Digital and connected innovations to improve the reliability and efficiency for low and medium voltage electrical installations, including EV infrastructure, solar inverters, modular substations, distribution automation, switchgear, measuring and sensing devices, control products, including KNX

systems designed to integrate and automate a building's lighting, ventilation, heating, and security, wiring accessories, enclosures and cabling systems, data communication networks, and power protection.

Robotics and Motion division

The Robotics and Motion division provides products, solutions and related services that increase industrial productivity and energy efficiency.

Its motors, generators, drives and robotics provide power, motion and control for a wide range of automation applications. The leading position in wind generators and traction converters complements the industrial focus, leveraging joint technology, channels and operations platforms.

Industrial Automation division

The main focus of this ABB business is to provide customers with products and solutions for instrumentation, automation and optimization of industrial processes. The industries served include oil and gas, power, chemicals and pharmaceuticals, pulp and paper, metals and minerals, marine and turbocharging. Key customer benefits include improved asset productivity and energy savings.

Power Grids division

The Power Grids division is a global leader in pioneering technologies that help balance the growing need for electricity while reducing environmental impact as a partner of choice for enabling a stronger, smarter and greener grid. The division serves utility, industry, transportation and infrastructure customers and is focused on addressing key areas such as the integration of renewable energies, growing network complexity, grid automation, and microgrids. This division also offers a full range of consulting, service and asset management solutions based on a lifecycle approach
