

## Integral Services Co. for Mechanical Contracting & Instrumentation W.L.L.

**Established in 1984**

### **Address :**

P. O. Box : 3683 Salmiya 22037 Kuwait  
Tel. : 2326 2706 / 2326 2707 / 2326 3979  
Fax : 2326 2717  
Email : iscocorp@isco.com.kw

### **Working Hours :**

7:30am - 4:30pm (Sunday - Thursday)  
9:30am - 3:00pm (Saturday)

### **Management :**

Faisal AbdulAziz Al-Arfaj (Chairman & MD)  
Cheryl Al-Arfaj (Executive Director)  
Tariq Al-Arfaj (Deputy MD)  
Usaamah Al-Arfaj (Asst. MD)

**Employees :** 4000 (Permanent 850 and indirect workforce of 3150 consisting of Skilled and Semi Skilled labor)

### **Activities :**

#### **Engineering & Construction**

Full range of project management services including engineering, procurement and construction (EPC) of refineries, booster stations, gathering centers, petrochemical plants and power plants. Turnkey construction services viz. civil & structural, mechanical & piping, electrical & instrumentation, pre-commissioning / commissioning.

#### **Heavy Engineering**

Design and manufacture of pressure vessels, shell and tube type heat exchangers (including components and re-tubing jobs), columns, towers, reaction vessels, autoclaves, API storage tanks, skid mounted units, modular units, structural steel fabrication of platforms, ladders, pipe supports in carbon steel, stainless steel and alloy steel under ASME "U", "U2", "PP", "R" and "S" stamps. We have also manufactured equipment under "PED" stamp. Our fabricated equipment are exported to various countries in Europe, Middle East and Africa.

#### **Operations & Maintenance**

Full service operations and maintenance support activities such as preventive and predictive maintenance, staffing & training plans, commissioning and start-up assistance, operator/craft skills-level training, O&M program effectiveness audits, facility and equipment condition assessments, shutdown, turnaround planning.

### **Specialized Services**

#### **- NDT / QA & QC Services**

All types of conventional and non conventional NDT services including radiography, ultrasonic, magnetic particle testing, training of Personnel up to ASNT level II certification.

#### **- Insulation & Refractory Lining**

Supply and application of thermal (hot & cold) insulation to boilers, turbines, piping, ducting, refractory, fibre glass lining, fire retarding & fire proofing. Approved applicator of fire proofing products. Acoustic insulation.

#### **- Surface Preparation & Painting**

Surface preparation by sand or grit blasting and / or power brushing and needle gunning. Painting or coating using air spray, airless spray, brush or roller application.

#### **- Scaffolding & Access Systems**

Consultancy, installation, rental, renewal in accordance with BS 1139 for materials and BS 5973 for erected systems of all types of access scaffolding.

#### **- Chemical Cleaning & Hydroblasting**

Consultancy and advice on appropriate application of techniques and equipment, opening up or removing equipment, cleaning operations and re-instating equipment ready for operation. Expertise, manpower and machinery available for cold cutting, ultra high pressure water jetting, waste chemistry, catalyst loading / unloading.

#### **- Diving & Marine**

Fully equipped and qualified diving teams trained to carry out under water survey, inspection, still and video filming, repair, salvage, cutting & welding for offshore maintenance and construction projects.

#### **Trading**

Representing international companies for supply of various products/services to the oil & gas, petrochemical and power industry.
