SPETCO is a Kuwait based regional Oil & Gas Services Provider working exclusively with Oil & Gas Sector in the region, SPETCO provides a wide range of services in the upstream & mid-stream development & production of hydrocarbon reserves.

SPETCO has a strong track record of executing major projects for KOC, JO in Kuwait and ADCO & ADMA in UAE for the past 25 years.

SPETCO has long established reputation as a reliable technology partner and a total solutions provider being innovative and pro-active to the needs of the oil and gas industry in the middle eastern region with particular emphasis on resolving their complex problems related to production and process requirements, both upstream and midstream, utilizing the in-house engineering resources in tandem with the know-how and expertise gained over the long years.

SPETCO specializes in handling of EPC & lease contracts for production systems and production facilities where we engineer, design, construct, commission and operate high tech systems and facilities for hydrocarbon processing requirements of our clients. It also specializes in providing unique services including a variety of artificial lift systems, well testing, tubular lining and repair and much more. SPETCO has the technical expertise to undertake projects in Oil & Gas Industry from inception through implementation, including after installations sales and service support.

HSE:

The management & staff of SPETCO, are committed to prioritize health, safety & concern for environment first and foremost, in all interactions with its associates, vendors, subcontractors, customers and business partners. It places the highest priority on the health and safety of its workforce, on protecting its assets and on safeguarding the environment. It is committed to promoting a culture where every individual is fully aware of his or her responsibility to take care of each other as well as the environment they work in.

Quality:

At SPETCO, quality-consciousness is a way of life and permeates every activity it undertakes. Its employees are driven to exceed customer expectations. It strives to deliver solutions that meet the highest quality standards. All procedures are well documented with strict control mechanisms in place as per ISO and relevant industry requirements.
